

Kindlespire Park Survey - Your voice matters!

Clay County Conservation Board and the Oneota Conservation Foundation are preparing a master plan for the approximately 300-acre Kindlespire Park and the larger 1,000-plus-acre conservation complex along the Little Sioux River. The plan will evaluate recreation, natural resources, wildlife habitat, access, landscape connectivity, and potential improvements throughout the complex. Whether you use Kindlespire frequently, visited without knowing its name, or have never been there, your views matter. This voluntary survey takes approximately 8–10 minutes.

Enter your email address at the end of the survey for a chance to win a $50 gift card!
