

Snag Creek Group Camp at Black Hawk Park (Outlined in Yellow)

Snag Creek Group Camp accommodates up to 24 camping units needing electricity. Additional space is available for non-electrical units. A water hydrant is available in the Group Camp Area to fill holding tanks. A pit toilet is available in this area and campers in the Group Camp area may use the shower facility in the regular campgrounds or the old shower building located closer to the group area and is marked on the map with a red "X".
